Re: Site Evaluation
2498 SE Mullenix Rd
Port Orchard, WA 98367

Parcel ID: 242301-4-019-2001

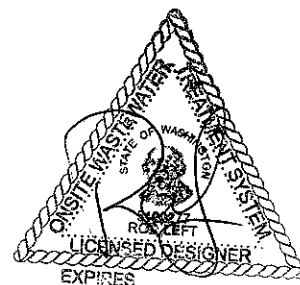

To Whom It May Concern:

I conducted a site evaluation on the property listed above to determine what type of drain field could be installed. I excavated 9 soil logs in order to locate an area that could optimally sustain a gravity system drainfield. Soil logs 1, 2, 4 and 5 qualify for a Pressure System. Soil logs 8 and 9 qualify for a gravity drainfield system. In addition the area comprising soil logs 8 and 9 are large enough to sustain a 4-bedroom house, which requires 267 feet of drainfield with the category of soil type 4.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Left", is written over the word "Sincerely,".
